WE PROTECT WHAT PROTECTS YOU

What We Do

SealSource Home provides eco-friendly protection solutions that add years of life to homes by reinforcing their most vulnerable areas-- without the cost or disruption of full replacement. We provide safeguards against overall wear and tear, moisture penetration and degradation due to snow, wind, sun, rain and ice. Our products are safe for people, pets and the planet.

SealSource Fans

We have been delivering premium results to Fortune 500 Companies for over 20 years and now we're delivering the same quality right to your door.

Salt

Hardener Benefit

*image represents the instability and weaknesses beneath the surface of the concrete which is extremely porous.

Approximately 2500 psi

*image represents the increased structural integrity and longevity beneath the surface of the sealed concrete

Approximately 7000 psi

Sealer Benefit

Unsealed
vs
Sealed

Water absorbed into unsealed concrete

Water beads on sealed MaxSeal™ concrete

Act Now

EXTEND THE LIFE OF THE CONCRETE

Delay or avoid costly repairs or full replacement which can cost (\$5-\$15 per sq. ft)

REDUCE LONG-TERM MAINTENANCE COSTS

Fewer professional cleanings, patch jobs, or resurfacing expenses

PREVENT SPALLING & CRACKING

Prevent spalling helps avoid expensive crack repairs or structural weakening.

PRESERVE AESTHETIC APPEAL & PROPERTY VALUE

Enhance curb appeal, supports higher property resale or rental value.

PROTECT AGAINST CHEMICAL & SALT DAMAGE

Minimize surface degradation and extends coating or floor finish lifespan.

Act Now

	Estimated Cost	Estimated Lifespan	Estimated Total Cost
Total Concrete Replacement	*\$18+/ft	20 Years	\$11,000
Total Paver Replacement	*\$27+/ft	20-25 Years	\$16,200
	**\$3/ft		\$1,800

*Visit site for terms

*Estimates based on 600 sq/ft area, using a range of national averages and does not factor variables such as weather conditions, quality of original materials etc.

**Estimates given by authorized Seal Source Home representatives includes labor.

Site Survey

Surface is measured to verify square footage and evaluated prior to installation.

Proposal

After evaluation, proposal of recommended work will be given to homeowner.

Qualify

Qualification for financing.

Schedule

Install will be scheduled.

Application

Upon written acceptance services will be scheduled and installation will take place.
